The image shows the interior of a high-end safe. The top section is a stainless steel tray containing eight luxury watches in individual circular holders, each outlined with a red dashed line. Below the tray is a large, polished metal handle. At the bottom, a drawer is open, revealing a collection of tools including a cigar, a lighter, a pen, and a small metal object. The safe's interior is dark, and the lighting highlights the metallic surfaces and the intricate details of the watches.

CHRONOS LUXURY WATCH AND JEWELRY SAFES

The Sum Of All Watch Safes

Solid Craftsmanship

Each Chronos watch safe is a unification of custom crafted individuality and consistent precision. With an excess of choices and optional features, each safe is a unique result of the specific tastes and standards of its recipient, no two are ever alike. To ensure steadfast reliability, every component of the safe is developed through precise laser and machine cutting. From the exacting accuracy of the masterful timelock, to the precision of the machine cut face, the build quality of a Chronos is as unmistakable as it is undeniable.

Supreme Security

Protection is the core function of any safe, and this is precisely where the Chronos dominates. Bristling with the newest means of proven defenses, the Chronos watch safe boasts a protection feature set like no other. Including ballistic armor plating, four-way solid titanium locking bolts, tungsten carbide hard plate, locking bolt anti-drive, active and passive relocking, interlocking anti-pry door, hi-density amalgamate cladding, reinforced anchor bolts, alarm system integration, and a alert and tracking system.

Ultimate Usability

All Chronos watch safes boast an unrivaled set of high-end features designed to enhance user convenience. From technologically advanced features like the fingerprint entry and automatic watch winders, to accommodating innovations such as self closing drawers and a frictionless door, the Chronos is as convenient as it is impregnable.

CHRONOS

THE SUM OF ALL SAFES

To best suit your jewelry and watch storage requirements, the Chronos Series is available in two standard sizes.

SELECT CHRONOS MODEL SIZE:

Chronos 4218 COM

Interior dimensions: 42" Ht. x 18" W. x 16" D.
Exterior dimensions: 48.5" Ht. x 24.5" W. x 27" D.
Weight: 1,350 lbs.

Chronos 6218 COM

Interior dimensions: 62" Ht. x 18" W. x 16" D.
Exterior dimensions: 68.5" Ht. x 24.5" W. x 27" D.
Weight: 1,750 lbs.

Note: Fire and burglary protection ratings are consistent for both safe sizes, as is the selection of available features.

CHRONOS

THE SUM OF ALL SAFES

The Chronos features a redundant lock entry system for the utmost in reliability and ease of use. All safes are equipped with both a commercial-grade biometric fingerprint-reading lock and an electronic keypad lock. The primary biometric lock is powered by AC power for long term maintenance free use and the electronic keypad provides a fail-safe in the event AC is not available or the primary lock stops working for any reason.

Select either the oval biometric lock enclosure with tri-spoke handle or customized long enclosure with integrated handle. The integrated entry can be personalized to include monogrammed badging with your initials, logo, or a custom design to make the Chronos truly your own.

SELECT BIOMETRIC ENTRY ENCLOSURE:

- Drawer Layout _____
- Drawer Layout _____
- Drawer Layout _____
- Drawer Layout _____

Note:
 Standard drawer layout is an open tray with lining.
 Layout I recommended for 3" or 5" drawers.
 All inserts are 1.5" tall and interchangeable between drawers.

We offer a variety of drawer insert designs to properly store and organize your valuables. All inserts are interchangeable so you can swap interiors from drawer to drawer and easily change inserts as your collection grows.
