BR⊙WN SAFE

*When the batteries are **low** the unit will beep twice and flash red two times. The Batteries need to be replaced soon.*

*When the batteries are **critical** the unit will beep three times and flash red three times. The Batteries need to be replaced immediately to use the lock.*

How to Replace Batteries:

1. **Open the battery tray by depressing the release clip at the bottom of the lock.**

2. **Remove tray by pulling down to the right.**

3. **Replace the two 9-Volt batteries (use Duracell only).**

4. **Insert battery tray back into the keypad until you hear it "click" into place.**
